

HYDRO 5

Made from polyester tape with Hydrocare technology, which includes a special coating. This gives the tape properties that repel liquids, oils, dust and dirt, preventing their absorption into the tape, avoiding abrasion and providing greater durability and provides increased durability.

- Ideal for use in petrochemicals, paint work, water treatment, food processing, offshore water treatment, food processing, offshore and general industry.

- Highly resistant to UV rays, tearing and cutting.

- Easy maintenance, clean in seconds.

Standard	EN 355, EN 362
Lenght (m)	1,2 - 2 m
Weight (kg)	1 Kg
Connector	995 (16mm) + 984 (60mm)
Useful life (years)	10 usage + 2 storage

Materials

Rope	Polyamide
Absorber	Polyester
